

By purchasing one of our files you are helping us getting better and out-of-the-box with every new item. And there are plenty to come. Enough about us, let's talk about your needs now. In order to get going with Ocean View PSD files, you need to install some fonts first.

First things first: Fonts

Google font: [Playfair Display](#)

Google font: [Sintony](#)

Icons font: [FontAwesome](#)

In order to get started with coding Hotel PSD template, You have to obtain fonts used. Download both Bold and Regular versions of Sintony and Playfair Display. For the Font Awesome usage, follow [this link](#). After that You can open up PSD templates in Photoshop CS or later.

Replacing Image holders with actual Images

In order to replace images You have to go into the designated folder in Photoshop, find you Layer and right click on it. Select "Edit Contents" (Carefully read note on Photoshop Pop-up window, and click OK). There You go, you are presented with new document. Insert your picture, edit it as you like and then save it. Piece of Cake!

Some Image Credits

Being designed with Multipurpose attitude in mind, we showed some images on our preview files in order to get an idea. Not a single image is included with your purchased files, they were just for demo purposes due to copyright. If you want to learn more about photographs or images we used, here they are:
